TECH BRIEF

CLOUD SIGNING BOOK

aruba.it
ENTERPRISE

Cloud Signing Book: what is it?

A **web-based as-a-service** solution for managing company authorization processes digitally anywhere and anytime.

It is the digital version of a traditional signature book, but with higher security standards and can be integrated with additional trust services such as PEC certified email.

The web interface is fully **responsive** and accessible from both common desktop browsers and iOS, Android and Windows Mobile mobile devices.

Cloud Signing Book enables remote interactions in **real time**, simplifying and speeding up the process of approving files and documents, in favor of optimized organization.

Service compliant with Italian Prime Ministerial Decree 22 February 2013, Digital Administration Code (CAD) 7 March 2005 and compliant with eIDAS (EU) 910/2014.

Cloud Signing Book: main features

Manage **approval and signature processes for documents.**

Manage **documents and files** that need to be approved or signed by multiple parties.

Sign documents securely, easily and in compliance with relevant regulations, thanks to Aruba's Digital Signature tools.

At the end of the process, **share signed documents** with all interested parties, securely and in compliance with regulations, via PEC.

Separate into groups and make visible and accessible to signatories, only the documents and files assigned to their group.
